"Improvement of Living Condition

The eleventh annual session of the ray of Dallas (twenty minutes). Texas Farmers' Congress opened at the assembly hall at the A. and M. College yesterday morning with President E. W. Kirkpatrick of McKinney ident E. W. Kirkpatrick of McKinney Hon. P. Attwater of Houston, Sunset presiding. There were present a industrial agent (twenty minutes). number of the well known leading spirits of the congress from various parts of the State, and many successful farmers and others representing the allied interests of the congress. There were also a number of ladies in the audience. The crowd was not large at the opening session, but the noon trains and those of the after-

noon largely augmented the numbers. The exercises of the morning session included the address of welcome by President H. H. Harrington, who extended cordial greeting to the visitors; together with the response by Hon. Lee Young of Stephensville. The annual address of President E. W. Kirkpatrick, showing the progress and work of the congress, was also an im-

portant feature. The report of the secretary and treasurer, T. W. Larkin, of Denison, was heard. Hon. D. J. Neill, president of te Farmers' Congress, was not present for his address on Farmorganizations at the morning ses

Following the announcements, adjournment was taken. President Kirkpatrick took occasion during the opening session to emphasize the rule of the congress to keep clear of part isan politics in the discussions, this being one of the tenets of the congress upon which its success and harmony is dependent.

The afternoon was very profitably given to separate sessions of the various organizations, and to looking at the exhibits of stock and agricultural and horticultural products.

The college has a fine exhibit of stock of various kinds under the direction of Prof. Burns. Among the private exhibitors are Howell Bros., Red Polled cattle; Sam Higgs, horses; R. R. Royall, hogs.

The horticultural and agricultural exhibits were not complete yesterday, but such as were shown are exceedingly fine. These exhibits will likely be largely increased today.

Rapid Action Taken on Contests by Committee.

COUPLE NOT PASSED ON.

Roger C. Sullivan of Chicago an Easy Winner In the Twenty Seats That Were Contested From the Chief City of the West.

Denver, July 7.-In record time Monday the Democratic national committee disposed of all contests before it with the exception of those of two states-Pennsylvania and Idahowhich went over until Tuesday morning. The general result was to sustain the delegates who came here with credentials from their state, and districct conventions. A total of seventy-six seats were involved in the contests from Illinois, New York, Pennsylvania, Idaho and the District of Columbia. The work was done by six subcommittees, four of which reported Monday to the full body.

Roger C. Sullivan of Chicago was an easy winner of the twenty contested seats from Cooy county which were disputed by Robert E. Duke and his associates. Former Senator Fred T. Dubois was sustained by the subcom-

Tom L. Johnson of Cleveland, was a winner in the Nineteenth Ohio district. where he triumphed over the subcommittee, winning out by the vote of 25 to 24 before the national committee. The Rockwell delegates, E. E. France their places. The victory of Johnson was secured only after the Cleveland committee. In the Ninth Ohio district,

contested seats over the protest of and only effect of the snow was the Johnson.

Pat McCarren of Brooklyn was practaically ignored in his contest against red at 11:10 o'clock, nearly one hour cown, trading point and a good place of live, and attracted favorable attention. Bryan had no other advertising matter on the ground.

Charles F. Murphy for the twelve seats in Kings county, New York. Before the subcommittee, he became so abusive of the Murphy-Cole men that he was not permitted to proceed, and the meeting was abruptly adjourned with the decision to take no further action with regard to the contest. The full committee submitted this action delegate who filed in.

Pennsylvania district, whose right to his seat was disputed by the Guffey people, was sustained by the subcom-mittee. It was contended that Howley was not a Democrat, but had organized a party of his own called "The Eryan party." The Pennsylvania contests which involved eight seats in the city of Philadelphia, and three in Allegheny county, provoked probably the most bitter discussion that was placed before any of the subcommittees.

It Is Hard at Work to Bring About His Defeat.

DELEGATES ARE SOUGHT.

Some of Those Not Favorable to the Nebraskan's Nomination of the Opinion That It Is Now Too Late In Such Undertaking.

Denver, July 7.—Those opposed to the nomination of W. J. Bryan are showing a purpose to leave not the smallest stone unturned in their search for delegates who might be prevailed upon to vote against the Nebraskan.

Friends of Mr. Bryan attach much importance to the fact that Lewis Nixon was made the chairman of the subcommittee on the injunction plank, while Judge Parker, who is the state's representative on the committe on resolutions, was given second place on the sub-committee. Mr. Nixon is known as a warm friend of Mr. Bryan and his prominence in Tammany is interpreted by the Bryan people as indicating New York in the finl "show down" will support Bryan.

The importance of the leadership in New York is apparent in the review the first time by the anti-Bryan people of figures given out Monday night for as setting forth the theory on which they have been working. They claim the timely utterance of New York against Bryan would rally a total of 349 votes-fifteen more than enough to prevent the winning two-thirds vote necessary for a nomination. This is the strength they are counting on: Alabama 1; Florida, 7; Georgia, 26; Louisiana, 18; West Virginia, 14; North Carolina, 24; Connecticut, 12; Delaware, 6; Maine, 11; Massachu-setts, 12; New Hampshire, 4; New Jersey, 24; New York, 78; Pennsylvania, 48; Rhode Island, 4 Vermont, 8; Minnesota, 22; Ohio, 12; Wisconsin, 6; Alaska, 6; Porto Rico, 6; total

New York's failure to lead a stampede against Bryan was generally accepted Monday night as fatal to the hopes of his opponents, even some most sanguine admitting privately that it is now too late to rally an effective combination.

People who seek anti-Bryan indications and inferences attach signifi-cance to the fact of the defeat of the two men known as peculiarly friends of Bryan-Johnson of Ohio, and Campau of Michigan-and indorsement by states of four whose defeat of Mr. Bryan is known to be desired-Sullivan of Illinois, Guffey of Pennsylvania, Taggart of Indiana and McGraw of West Virginia.

on the outside of a railing, was the delegation from the Philippines.

A feature of the seating arrangements, new in political conventions, was the labeling of all seats. Every chair carried on its back a small white placard bearing the name of the state in large capitals with the word "delegate" beneath it. This small detail did away with much confusion inci-

dent to former convention. As Chairman Taggart mounted the platform the band played "Dixie," and there was tremendous cheering.

While the chairman was striving to bring the convention to order a ban-ner bearing Bryan's portrait was brought in, causing loud cheering.

TEXAS GIRL AIDS SCHOOL.

Visiting a number of the principal cities of Texas in the interest of Lenox Hall, a St. Louis school for girls, Miss Lucy May Johnson, a well-known Texas girl, whose home is in Bryan, was in Fort Worth Saturday, where she was a guest at the Hotel Worth. Miss Johnson has been prominently

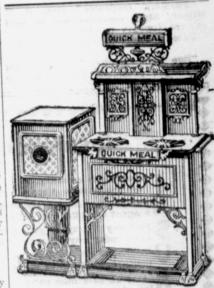

identified with several Texas colleges and is well known throughout the entire state. Lenox Hall, in the interest of which Miss Johnson is now working, is comparatively a new educational institution, but it has at its helm a woman so well known that Miss Johnson feels that the success of the school is already made. The principal of Lenox Hall is Mrs. M. Louise Thomas, who at one time was a resident of Texas, having made her home both in Waco and in Paris.—

Democrats Assemble in National Convention at Denver.

TEMPORARY OFFICERS NAMED

"Keynote" Speech Delivered by Chairman Bell-Committees Get Together After Adjournment of the First Ses-

By CHARLES W. ARTHUR. Denver, July 7 .- [Special.]-When the Democratic national convention was called to order this morning by Secretary Urey Woodson, every seat in the great Auditorium was occupied and had been for hours before the call to order came. Crowds besieged the building from the early hours of the morning and as soon as the doors were opened began to take their seats. The time was taken up with musical selections by an excellent band and the spectators visited among themselves and enjoyed the spectacle of the arrival of the notables in the ranks of the party as they were pointed out in the different delegations. The plans for the convention worked out without a hitch and everything moved smoothly from the very start. The Rt. Rev. James J. Keane, archbishop of Wyoming, was called upon to deliver the opening prayer and then Secretary Woodson announced the temporary or-

Temporary Officers of Convention.

Hon. Theodore Bell, of San Francisco, was named as temporary chairman, as had been announced would be the selection some days ago. Urey Woodson, of Kentucky, who is secretary of the Democratic national committee, was named as temporary secretary. The assistant general secretary was announced in the person of Edwin Sifton, of Washington, D. C.; sergeant-at-arms, John I. Martin, of Missouri; chief assistant sergeant-atarms, J. C. Fenn, of Indiana; chief doorkeeper, Eugene W. Sullivan, of 11linois; parliamentarian, H. D. Crutchfield, of Kentucky; official stenographer, M. W. Blumberg, of Washington, D. C. The organization appointments were received with applause and then Mr. Bell, the temporary chairman, was presented to the convention and delivered his "keynote" speech. He was listened to attentively from every part of the hall and was frequently interrupted with applause as he uttered patriotic and stirring portions of his

Getting Down to Business.

At the close of Mr. Bell's address, the regular order of business was taken up, the first thing being the formal election of the temporary officers as previously read to the convention. Then followed the long routine work of selecting the members from each state delegation for the various committees who would arrange for the future work of the convention. There was the credentials committee to be chosen and the committee on resolutions, the committee on permanent organization and the committee on rules and order of business. This being finished various miscellaneous matters of no great importance came before the body for action and then adjournment was taken to permit the commttees to get down to work and A large number of yachts and pected will be presented at the next

One of the most interesting features of the convention will be the awarding of the first McNeill medals, awarding of the first McNeill medals, awarding of the first McNeill medals, awarding to named in honor of the memory of one made up the temporary roll of the conof the founders of the association, to three persons in the United States tions of course there was the all important work of preparing the declaration of principles on which the party will place their candidates before the people. The main part of the platform as already agreed upon by Mr. Bryan and his advisers was in the hands of the chairman and was first presented to the committee and discussed. Then came planks from various members of the committee that had to be acted upon. The longest discussion and the greatest interest was over the anti-injunction plank and the debate over this issue was protracted, with many consultations between committee members and the exchange of telegrams between Mr. Bryan and his representatives in the

VALUE OF REGISTERED STOCK. Will be Manifest at the Bryan Colt

Bryan Eagle.

One of the most profitable lines of diversification, the breeding of high grade horses and mules in Brazos county has been one of the most neglected until the past year. There will be about 150 horse colts from regis tered stallions and about the same number from scrubs and grades; also about 250 mule colts, having a value at six months of age—the ones from registered sires of \$50 to \$100 each and those from the scrub and grade sires of \$15 to \$50, with more of them nearer the \$15 mark than the \$50. The mules will have a value about \$35 to \$40 each. Now by breeding the mares with the cheap colts to a good registered sire, at an additional cost of \$5 to \$10 for service fee, their value could have been doubled, and when matured, in place of a \$50 pony a horse worth \$150 to \$300 would be the result.

Farmers, to increase the value of their mules must first increase the size of their mares. By breeding mares of 1000pounds up to some good draft horse one can raise brood mares weighing 1250 to 1500 pounds, which bred to the right kind of a jack will raise the kind of mules that sell for \$500 a pair. The geldings he can dispose of at fancy prices as expressers, surrey horses, etc.

Colt raising is one form of livestock diversification that the tenant farmer can follow with the most profit. With a pair of good brood mares he could easily pay his rental with the sale of two good colts each year as weanlings. By breeding his mares so as to foal late he could layby his crop with them before foaling time and his colts would not bother very much while harvesting and they would be old enough for sale as weanlings before the next crop. The tenant cannot profitably raise other live stock, but he can easily raise a good colt at very little additional expense. Farmers in Brazos county have an

opportunity of breeding to good horses never possesed before. There is standing in the stud at Bryan three registered standard bred trotting horses, one registered Kentucky saddle horse, one registered Perchron draft horse and one registered German coach. These horses are of the very best blood lines to be had and besides possessing individual excellence are siring a grade of colts second to none, considering the dams. Breed for a purpose and select a sire and dam suited for that purpose, and good results will follow. In order to show what improvement can be had by using registered sires of good blood, the Brazos County Horse and Mule Breeders Association will hold a colt show for weanling colts foaled in 1908 as advocated in a recent issue of the Eagle, and will offer cash premiums besides many specials for the best horse and mule colts. All classes will be represented, farm, carriage roadster, saddle, combination, etc Time, place and premium list will be announced in due time, so commence at once to fit that colt or mule for the show ring. If you have nothing for this show send that mare of yours to some registered horse or jack, so you can show next year. Mr. Farmer give that boy of yours that mare you are not breeding, and let him raise a colt of his own. He will make a prize winner out of it, and such things help to keep him on the farm and give him an interest and love for borses that will wake a better man of him. This colt show is gotten up to induce the breeding of better herses and mules and no cost will be at tached to the exhibitors in any way, The only conditions to enter a colt will be that the sire must be a stallich standing for public service in Brazes county and registered in some reliable registry association approved

by the United States government, All colts will be exhibited at the halter or beside another horse. Begin at once to give them a little attention and if you miss a prize the increased value of the colt will pay you for all extra trouble and expense. And be sure and broad to a sire whose celts will be eligible to all fut-

SNAKE INDIANS ARMED.

Three Wagonloads of Rifles Taken to Their Camp.

Weletka, Okla., July 7.—Three wagonloads of rifles were taken into the camp of the Snake Indians and several hundred of the 2,000 Indians congregated there are full armed.

The Indians are making a new demand, according to reports, one distinctly different from anything heretofore broached. The demand is that the Snakes be given their allotment certificates, which they have hereto-

fore steadfastly refused.

It is said that "Crazy Snake" has issued an ultimatum in which he said that unless the certificates were delivered at once the Indians would make a charge upon the white in their step in driving all the white people from the former Indian nations.

Pennsylvania Most Troublesome.

Denver, July 7.—Pennsylvania developed the most troublesome case, which was complicated by the action of about forty of the sixty-eight delegates holding a caucus against the protest of the element opposed to the re-election of Colonel James Guffey of Pittsburg, as national committeeman, and re-electing Colenel Guffey and giving him a certificate of election signed with forty-seven names. anti-Guffey people made a stout fight before the subcommittee and bitter recriminations were exchanged.

Hardly less acrimonious were the contests in case from Chicago. The decision was in favor of the sitting delegates, representing the interests of National Committeman Sullivan.

One of the surprising features to those not in the confidence of the situation, was the failure of the Michigan delegation to re-elect National Committeeman Campau of Detroit. E C. Wood of Flint was elected, Campan receiving but three votes.

Heat Terrible.
